

# RLM-LED 14W

**Sunnex RLM-LED** is a magnifying light with superior light intensity for detailed inspection. The magnification is 5 diopter (2,25X) and the light source is a 14W LED ring light with minimal heat emission.

The rugged and stable arm has adjustable joints with levers for easy and safe positioning. Two versions are offered, a c-clamp version and a mobile stand version. As an option there is an add-on lens (2,25X) available. RLM-LED is pure in style, easy to keep clean and robust.

## Applications

- Inspection work
- Fine assembly work
- Laboratories
- Workbenches
- Troubleshooting small components & details

## Benefits

- Magnification 2.25 times
- Adjustable joints with levers on arm
- Adjustable lamp head
- Minimal heat emission
- Dimmable

## Technical Specifications

Supply voltage	100-240V AC 50/60Hz, 1,8m cordset
Light source	14W LED ring light
Life span	>25.000h
LED cover lens	Opal white
Total arm Length	880mm
Colour	Off-white
Colour temperature	5500K
Light output	1250Lm / 10000Lx at 15cm
IP rating	IP 20
Protection Class	I
Base	Direct mount, c-clamp or mobile trolley base

Version	Connection	Lamp	Art. no.
C-clamp	230V	14W	31 120
Mobile	230V	14W	31 125
Add-on lens 2.25X			RLM-5XMAG
