

SOLUS 6

Solus 6-series is suitable for industrial environments. The IP65 version is particularly adapted to harsh environments where dust and moisture resistance is vital. Typical applications: grinders, lathes, drilling machines and outdoor use. Solus 6-series spotlights have a flexible gooseneck style arm available in two lengths. It can be supplied with a 100-240V AC/DC-adaptor.

Solus 6-series is equipped with high intensity LED's having a colour temperature of 4000K which is suitable for demanding tasks. LED technology delivers low energy consumption and a long service life as well as high vibration durability and virtually no radiated heat from the light beam.

The lamp head is made from Aluminium which allows good heat dissipation and protection against the tough environments it will be subjected to in industrial applications.

Custom versions available upon request.

Features Include
